PROFESSIONAL PROFILE

UX/UI Designer at Applus, a global B2B inspection and certification company, combining product design with project management: requirements gathering, QA coordination, schedule and team management, and acting as the bridge between international clients and development teams. Currently leading the design and coordination of multiple B2B products in parallel for international markets.

PROFESSIONAL EXPERIENCE

UX/UI Designer & Project Manager · *Applus LATAM* Jul. 2025 – Present

- Design of UX/UI interfaces for multiple simultaneous B2B products, from wireframes to high-fidelity prototypes, on projects with multidisciplinary teams and international clients.
- Development of usability reports based on user testing, with findings and improvement recommendations for the interfaces.
- Building and maintaining component systems in Figma, including semantic color criteria and interaction patterns for workflow management platforms.
- Project management: team coordination and schedule tracking in the Project Manager role, in addition to design responsibilities.
- Requirements gathering and translation of client needs into user flows and interface design decisions.
- QA documentation and definition of acceptance criteria aligned with the design, including test cases structured by module.
- Presentation of design proposals, progress, and schedules to clients and stakeholders, and development of user manuals for products in go-live phase.

UX / UI Designer · *IncubApp Venture Capital* Mar. 2024 – Jun. 2025

- Design of the full UX process (research, wireframes, high-fidelity prototyping, and usability testing) for startups in Agile/Scrum environments.
- User interviews and usability testing to identify friction points and define improvement priorities.
- Design of component systems in Figma with accessibility and responsive design criteria.

Visual Designer & 3D Visualizer · *Disegno / CSPACE* Mar. 2022 – Dec. 2024

- 3D visualization, modeling, and graphic design for architecture and interior design projects, including visual identity development and brand communication materials.

EDUCATION

Industrial Design · *Universidad Industrial de Santander (UIS)* 2015 – 2021

GPA: 4.2 / 5.0 · Graduated: December 2021

Thesis: "Study on the configuration of graphic user interface elements aimed at managing external cognitive load in an augmented reality environment"

Underlying research for a collective academic article published in RAD · DOI: 10.53972/RAD.eifd.2020.3.7

National Exchange — Industrial Design · *Pontificia Universidad Javeriana* Jul. – Dec. 2018

ADDITIONAL TRAINING

- Google UX Design Professional Certificate — Coursera (2024): 7 courses covering user research, Figma prototyping, and usability testing.
- Communication and Negotiation Mentorship Program — +Mujeres en UX LATAM (2024).
- Product Owner Course: backlog prioritization and management, and roadmapping, applied in professional projects.

PUBLICATIONS & ACADEMIC ACHIEVEMENTS

- Co-author of a collective academic article: "User Interfaces in XR Technologies for Learning and Training" — Red Académica de Diseño (RAD), 2021. A synthesis of research on XR environments drawn from several theses within the group. DOI: 10.53972/RAD.eifd.2020.3.7

- Speaker at the RAD conference (2021): "Developing Experience Through Playful-Educational Product Systems," on designing for early childhood hygiene habit learning.

SKILLS & TOOLS

- UX / Research: User research · Usability testing · Personas · Journey mapping · Benchmarking · Wireframing · Hi-Fi prototyping
- Design & Prototyping: Figma (advanced) · Adobe XD · Illustrator · Photoshop · Webflow
- Project Management & Documentation: Schedule tracking · Notion · Jira · QA documentation · Excel
- 3D Visualization: 3ds Max · V-Ray · Corona · Blender · Rhinoceros
- Code: HTML · CSS (actively learning)

LANGUAGES

Spanish: Native

English: B2 — professional use in international work environments
